Relationship and Communication

We felt the journal of *Relational Child and Youth Care Practice* and the following anthology provided valuable additional reading:

Bellefeuille, L., & Ricks, F. (2008). *Standing on the precipice: Inquiry into the creative potential of child and youth care work*. Edmonton, Alberta: Grant MacEwan Press.

Developmental Practice Methods

Child and Youth Work Interventions

Part of promoting better service is pointing out those interventions that are positive and if properly implemented, likely to lead to healthy relationships and growth. However, some that are widely used may be harmful. Thus in this section on *Child and Youth Work Interventions* we include two pieces on point and level systems, in the hope that readers will work to replace these with the many other positive approaches that are now available.

Garfat, T., & Newcomen, T. (1992). As *IF: A model for thinking about child and youth care interventions. *Child and Youth Care Forum*, 12(4), 277-285.
